ABOUT ME

I like to think of myself as a nice person because I feel that I work well in a team environment. I believe that among other skills, my relationship building ability would be most valuable in any company that operates on a positive team culture. The greatest gift I have is my willingness to learn and apply myself fully in anything I undertake.

SKILLS

- UX Design - User testing, prototyping, user/competitor research, user centred design.
- HTML5 & CSS3 - SASS.
- JavaScript - jQuery, NodeJs, Various API's

EDUCATION

2017 **Diploma in Web Development and UX Design**
Yoobee School of Design
(Graduating December 2017)

PAST STUDENT PROJECTS

Whitcoulls Libraria

A fully responsive peer-to-peer book-lending platform for Whitcoulls customers.

Tourism New Zealand Traverse

A web application using Google Maps API, allows users to personalise their travel based on their travel details.

Wellington Waterfront

A fully responsive website advertising attractions along the Wellington Waterfront (group project).
